DETAILED ACTION

Allowable Subject Matter

1. Claims 21-67 are allowable over the prior of record.
2. The following is an examiner's statement of reasons for allowance:

Applicant has claimed uniquely distinct features in the instant invention which are not found in the prior art either singularly or in combination. They are a method of enriching a non-linkable media representation presentable at a user terminal, the method comprising the steps of obtaining the non-linkable media representation; obtaining code and, responsive to the code, generating a panel comprising at least one link to at least one other media representation; and overlaying the panel on the non-linkable media representation in accordance with a presentation at the user terminal, such that the non-linkable media representation becomes linkable to the at least one other media representation. These features are not found or suggested in the prior art.

The present invention is directed to a method enriching a non-linkable media representation presentable at a user terminal, the method comprising the steps of obtaining the non-linkable media representation; obtaining code and, responsive to the code, generating a panel comprising at least one link to at least one other media representation and overlaying the panel on the non-linkable media representation in accordance with a presentation at the user terminal, such that the non-linkable media representation becomes linkable to the at least one other media representation. Each independent claims 21, 44, 63 and 67 are identifies "obtaining code and
